TESTIMONIALS

Dr. Gaum, thank you so much for all the information and guidance you gave us during the course. Your expertise, patience, and encouragement have not only deepened my understanding but also inspired me to grow with confidence.
Dr. Tarik Akkouche | September 2025

Such an informative common sense approach to surgical procedures; so many "Pearls" to start using everyday in all aspects of dentistry! Loved it!
Dr. Liz Hanna | October 2024

Dr. Anil Rick Soordhar

DDS, DABCP, DFAACP, FAACP, AFAAID, Fellowship from the Oral Surgery Academy of General Dentists

Dr. Anil Rick Soordhar earned his Doctor of Dental Surgery degree from the University of Western Ontario in 2004 and has since completed over 1,300 hours of advanced continuing education. He is a Diplomate of the American Board of Craniofacial Pain and holds fellowships with the American Academy of Craniofacial Pain, the Academy of General Dentistry (Oral Surgery), and the American Academy of Implant Dentistry. His expertise spans orthodontics, implantology, cosmetic and restorative dentistry, TMJ and headache therapy, sleep apnea treatment, and full-mouth rehabilitation for patients of all ages.

COURSE OBJECTIVES

AGD Subject Code: 310

This course is designed for general practitioners who wish to perform more of their own surgeries. It is a step-by-step presentation of numerous minor surgical procedures that the dentist can and WILL confidently perform in the office. Participants will perform a large number of hands-on procedures utilizing anatomical specimens. The course will demonstratae techniques that have been utilized and updated successfully for over 30 years. It is important to emphasize that this seminar does not present major maxillofacial surgery such as osteotomies, fractures, condylectomies, rhinoplasties, etc. that are of no practical or clinical value to the GP. The surgical procedures that will be taught are the “BREAD and BUTTER” variety, allowing the participants to refine and update all surgical skills.

OUTCOME

Participants will learn the choice of proper instruments for each surgical technique. The proper surgical techniques, as well as pre-operative patient assessment and post-operative considerations will no longer be complicated nor a mystery. The GP will have the confidence and the skill to perform all of the surgical techniques taught in the seminar.

You are required to bring additional essential instruments to the course, at your own cost.

The list will be provided after registration.

COURSE OUTLINE

DAY 1

8:30AM - 10:30AM - LECTURE

- Examination, Assessment and Preparation of the Patient

11:00AM - 12:30PM - HANDS-ON

TESTIMONIALS

This is a practical, nuts-and-bolts course. Dr. Gaum demystifies surgical extractions and you will be utilizing the techniques taught come Monday morning.
Dr. Robert Fraser

Excellent handout material, well organized, good models and well instructed didactic course.
Dr. Amrita Sandhu

Dr Gaum’s energy, teaching style and magnificent concept.
Dr. Mohammed Rahman

Excellent hands on course that is thorough and practical for everyday dentists.
Dr. Kevin Treger

Appreciated the approach ‘you too can do it’, plus humour.
Dr. Sona Ipe

Dr. Gaum’s course paid immediate dividends for me and my practice, and still does. It is a must-take course for every G.P.
Dr. Elio Filice
