REGISTER**

## TESTIMONIALS

*Dr. Gaum, thank you so much for all the information and guidance you gave us during the course. Your expertise, patience, and encouragement have not only deepened my understanding but also inspired me to grow with confidence.*

*Dr. Tarik Akkouche | September 2025*

*Such an informative common sense approach to surgical procedures; so many "Pearls" to start using everyday in all aspects of dentistry! Loved it!*

*Dr. Liz Hanna | October 2024*

# WITH A NEW CBCT COMPONENT

**Dr. Lawrence (Larry) Gaum** is an oral surgeon who maintains a private practice in Toronto, Ontario, Canada. He is a graduate of Dalhousie University Dental School in Nova Scotia, Canada. He practiced general dentistry for five years before taking his post-graduate training in Anaesthesia and Oral Surgery at the University of Pittsburgh and the Wilmington Medical Centre in Delaware. He is a former Instructor in Dentistry, University of Toronto, where he taught for over twenty years. He has lectured extensively throughout Canada, USA and numerous other countries, teaching his fellow dentists oral surgery, anaesthesia and pharmacology.

## **Dr. Carly Gordon**

*DDS, Trusted Assistant to Dr. Gaum  
for more than 10 years*

## **Dr. Anil Rick Soordhar**

*DDS, DABCP, DFAACP, FAACP,  
FAAID, Fellowship from the Oral  
Surgery Academy of General  
Dentists*

**Dr. Carly Gordon** received her Doctor of Dental Surgery degree from the University of Toronto. Dr. Gordon is committed to enhancing her knowledge and skills through continuing education courses and she practices a broad range of dentistry which includes certification in IV sedation, implants and Invisalign. She completed a Fellowship in Oral Surgery and has a lecturer, lecturer and lead faculty member for 10 years for the accredited course on Oral Surgery for the GP offered by Dr. Larry Gaum. Dr. Gordon is also a clinical instructor in the department of restorative dentistry at the University of Toronto.

**Dr. Anil Rick Soordhar** earned his Doctor of Dental Surgery degree from the University of Western Ontario in 2004 and has since completed over 1,300 hours of advanced continuing education. He is a Diplomate of the American Board of Craniofacial Pain and holds fellowships with the American Academy of Craniofacial Pain, the Academy of General Dentistry (Oral Surgery), and the American Academy of Implant Dentistry. His expertise spans orthodontics, implantology, cosmetic and restorative dentistry, TMJ and headache therapy, sleep apnea treatment, and full-mouth rehabilitation for patients of all ages.

## **COURSE OBJECTIVES**

**AGD Subject Code: 310**

This course is designed for general practitioners who wish to perform more of their own surgeries. It is a step-by-step presentation of numerous minor surgical procedures that the dentist can and WILL confidently perform in the office. Participants will perform a large number of hands-on procedures utilizing anatomical specimens. The course will demonstrate techniques that have been utilized and updated successfully for over 30 years. It is important to emphasize that this seminar does not present major maxillofacial surgery such as osteotomies, fractures, condylectomies, rhinoplasties, etc. that are of no practical or clinical value to the GP. The surgical procedures that will be taught are the “BREAD and BUTTER” variety, allowing the participants to refine and update all surgical skills.

## **OUTCOME**

Participants will learn the choice of proper instruments for each surgical technique. The proper surgical techniques, as well as pre-operative patient assessment and post-operative considerations will no longer be complicated nor a mystery. The GP will have the confidence and the skill to perform all of the surgical techniques taught in the seminar.

**You are required to bring additional essential instruments to the course, at your own cost.**

*The list will be provided after registration.*

# COURSE OUTLINE

## DAY 1

### 8:30AM - 10:30AM - LECTURE

- ▶ Examination, Assessment and Preparation of the Patient

### 11:00AM - 12:30PM - HANDS-ON

Surgical Models & Anatomical Specimens
